Supporting people in the local community for over 90 years.

Guild Care is Worthing's leading social care charity, supporting older people, people living with dementia, and children and adults with learning disabilities.

Services for older people - Our older people's services reduce social isolation and enable independence. Our three care homes offer residential care, 24/7 nursing as standard, dedicated dementia support and palliative care. We also offer domiciliary care, as well as one-to-one befriending and weekly group activities for over 65s through our 'Creating Connections' service.

Services for people living with dementia - We offer a range of services to support people living with dementia, and their carers. At Haviland House and Linfield House, we provide dedicated dementia care with 24/7 nursing as standard. Additionally, the Haviland House Day Service provides an extensive and inclusive activity programme, in a safe and stimulating environment.

Services for adults and children with learning disabilities - We provide a wide range of services that support children and adults with learning disabilities and complex needs.

For further information about our services please call

☎ 01903 327327 or visit

➡ www.guildcare.org

GuildCare♥
Nobody should feel isolated.

Guild Care is a registered charity, number 1044658.

Supporting you to live well

Introduction

Welcome to your West Sussex Care Guide 2024 to 2025 which provides information and guidance about care and support services for adults in the county, as well as advice on staying safe and well. It is also an easy-to-understand guide to the way adult social care services work in West Sussex.

We believe that people should have the best opportunity to lead healthy and independent lives and, wherever it is reasonable and safe to do so, they are supported to stay in their own homes for as long as possible, rather than having to move to long-term residential care.

We recommend you take the time to consider the different options that are available to support your independence. There is a charge for some of these services, and you may find it useful to plan ahead and consider how you will pay for them.

This guide provides details of domiciliary care services, day care services and extra-care housing schemes in alphabetical order. (Domiciliary care services are services that provide personal care and support for people living in their own homes.)

Care homes and care homes with nursing are listed in county geographical areas and the colours of the tabs at the bottom of the pages relate to the colours as shown on the map on pages 32 and 33.

The cost of producing the care guide is covered by the money made from allowing companies to advertise in it. We do not make a profit from this publication.

Accessible Information Standard

All organisations that provide NHS or social care services must meet the Accessible Information Standard. The standard sets out the approach that organisations must use to make sure that people with disabilities have access to information in formats that they can understand. The standard also tells organisations how to support people's communication needs, for example, by offering a British Sign Language (BSL) interpreter, deafblind interpreter or an advocate (someone to represent you).

Organisations must do the following five things:

Ask people if they have any communication needs.

Make a record of the person's needs

Highlight the needs very clearly on the person's records.

Share the information about the person's needs with other social care or NHS providers as part of any referral or handover process.

Meet the needs by making sure that the person gets the information they need in a format they can understand and that they receive any communication support they need.

Other formats available

If you would like the information in this guide in another format, such as on audio CD or in Easy Read, please contact Adults' CarePoint by calling **01243 642121** or using the 'Contact us' form on the 'How to get adult social care support' section of our website. You can also call using Relay UK on **18001 01243 642121** (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

To make sure you have the most up-to-date information on registered care services, check the Care Quality Commission's website at www.cqc.org.uk.

We would like to acknowledge the support of our advertisers and sponsors as without them it would not be possible to publish this guide.

The Council's disclaimer

We, West Sussex County Council, produce this guide for information only. We accept no responsibility or liability for the accuracy or the completeness of the information and materials in this guide, including the CQC ratings shown in the adverts.

We will not, under any circumstances, be held responsible or liable in any way for any claims, damages, losses or costs, including any direct or indirect damages or loss, resulting from or arising directly or indirectly from you using any of the information in this guide.

We do not accept any responsibility or liability for any decision you make using information in this guide. You are responsible for all decisions involving care and support that you make using information in this guide.

Looking after your health and wellbeing

We know that people value their independence, and most want to live at home for as long as possible.

People who maintain their independence also benefit from increased confidence and self-esteem, as well as a sense of purpose and quality of life.

Looking after your health and wellbeing can help you to manage your day-to-day tasks more easily and means you are more likely to be able to stay living at home for longer. In this section of the guide, you will find useful information about the simple things you can do to make sure you remain as physically and mentally fit as possible.

West Sussex Wellbeing

West Sussex Wellbeing is a friendly and impartial service that can support you to make improvements to your health and wellbeing. Most of the services are provided free or for a very small charge. Teams in your local area can provide advice and support on how to make changes to improve your health and wellbeing, such as stopping smoking, becoming more active, losing weight and reducing the risk of falls. For more information, visit www.westsussexwellbeing.org.uk.

Maintaining a healthy body

There are many benefits of being more physically active in our day-to-day lives. Increasing your activity levels will not only improve your physical health, but also your mental wellbeing, helping you to lead a more enjoyable and independent life.

People who exercise regularly feel fitter, are more relaxed, have more energy and lower their chances of developing a range of conditions, including heart problems, high blood pressure, diabetes and depression.

For more information about how you can increase your activity levels, visit www.westsussexwellbeing.org.uk.

As well as keeping active, there are other things you can do to help you stay fit and well, such as taking advantage of preventative measures like flu and coronavirus (COVID-19) vaccinations, health checks and screening.

Flu vaccinations

Seasonal flu is a serious infection which occurs in all parts of the world. The flu vaccine offers the best protection against flu, and each year many people benefit from receiving a free vaccine on the NHS.

The vaccine is safe, effective and protects against an illness that can be serious. If you are eligible, the NHS recommends that you have the free NHS flu vaccine every winter to protect you and other vulnerable people.

You can get the free NHS flu vaccine if you:

- are aged 65 or over;
- have certain long-term health conditions;
- are pregnant;
- live in a care home;
- are the main carer for an older or disabled person, or receive carer's allowance; or
- live with someone who has a weakened immune system.

Speak to your GP or specialist if you have a health condition and you're not sure if you're eligible for a free flu vaccine.

Front-line health and social care workers can also get a free flu vaccine through their employers.

Flu vaccines are usually available from your GP practice. Your local pharmacy may also offer this service. For further information and to check whether you are eligible for a free vaccine, visit the NHS website at www.nhs.uk/conditions/vaccinations/flu-influenza-vaccine.

Coronavirus (COVID-19) vaccinations

The coronavirus (COVID-19) vaccines are safe and effective. They give you the best protection against

COVID-19. Make sure you have the most up-to-date information about COVID-19 vaccinations, and how to book your jab, by visiting www.nhs.uk/conditions/covid-19/covid-19-vaccination/.

For more information on vaccines offered in the UK and when to have them, visit www.nhs.uk/conditions/vaccinations.

Health checks and screening

NHS health check – This is a national programme for people aged 40 to 74 that assesses the risk of developing heart disease, stroke, diabetes and kidney disease. The free 30-minute check can help identify if you are at risk of developing these conditions and offers advice on how to reduce the risk.

Please visit www.westsussexwellbeing.org.uk/healthchecks for more information about what happens in an NHS health check and to find your nearest provider. You don't need to wait for an NHS health check if you have any concerns about your health. Please contact your GP for an appointment in the usual way.

Health screening – Screening is an important way of finding out if you are at higher risk of a health problem so that you can receive information or early treatment. Screening is offered to different sections of the population, and includes breast, bowel, cervical, diabetic eye and aortic abdominal aneurysm screening. For more information, visit www.nhs.uk/conditions/nhs-screening/.

Health checks for people with a learning disability

People aged 14 and over with a learning disability can have a free NHS health check at their GP practice each year. You or your carer can contact your GP and ask to be added to the learning disability register. You will then be invited to attend a yearly health check.

For Easy Read information explaining what happens at a yearly health check, visit www.nhs.uk/conditions/learning-disabilities/annual-health-checks.

Mental wellbeing

Your mental health is just as important as your physical health – and the two are often linked. There are many practical self-care tips to help you improve your mental wellbeing. Visit www.westsussexconnecttosupport.org and go to the 'How to live well with a health condition or disability' section to find out more. A small conversation about your mental health has the power to make a big difference.

'Don't brush it under the carpet' is a campaign launched by Sussex Partnership NHS Foundation Trust in 2023 to improve emotional wellbeing in older people. You can find out more at www.sussexpartnership.nhs.uk/about-us/news-events/latest-news/dont-brush-it-under-the-carpet.

If you use a smartphone, you can contact local mental health services by downloading the Hub of Hope app and using your postcode to search for local services. You may also find the following free apps help your mental wellbeing. You can download these onto your mobile device.

- Thrive Mental Wellbeing
- I am – Daily Affirmations
- Calm: Sleep and Meditation

Preventing falls

Falls can lead to injuries and loss of confidence and independence. Increasing your activity levels will help you to reduce the risk of a fall, by improving your balance, co-ordination, bone strength and flexibility.

Making sure you wear well-fitting shoes and slippers with a good grip can also help to prevent falls. Our West Sussex Wellbeing website provides advice and support to help you increase your activity levels with exercise, and suggests simple steps you can take to stay steady on your feet. Visit www.westsussexwellbeing.org.uk/topics/falls-prevention.

There are many simple adjustments that you can make around your home to help prevent falls, such as making sure rugs have a non-slip underlay, keeping the stairs clear and tidying away trailing cables.

For more information about preventing falls, visit the following websites.

- www.westsussexconnecttosupport.org (search 'Health and wellbeing')
- www.westsussexwellbeing.org.uk/topics/falls-prevention
- www.nhs.uk/conditions/falls/

Eating well

Eating well helps you stay active and get more out of life. This means regularly eating a nutritious and balanced diet and drinking plenty of fluids. A healthy diet can also improve your mental health.

If you are struggling to eat healthily, manage your weight or make meals for yourself, there is support available on the West Sussex Wellbeing website at www.westsussexwellbeing.org.uk.

If you can't open tins, stand for long periods or pour the kettle, there are many pieces of equipment that could help to make these tasks easier. To find out what's

available, visit the West Sussex Connect to Support website at www.westsussexconnecttosupport.org/living-independently/equipment.

If you can't manage to go to the shops, you could have your shopping (or meals) delivered to your home.

Meals on wheels from Health and Independent Living Support (HILS)

Meals on wheels is another option to consider if you find it difficult to prepare meals. HILS provides the meals on wheels service on our behalf. When the HILS West Sussex team deliver your meal, they will also check that you are safe and well. They will contact someone for you if you need help or if you are not at home. All HILS team members have had relevant Disclosure and Barring Service (DBS) checks and will always be wearing their HILS uniform and ID badge when visiting you. All the meals they provide meet National Association of Care Catering (NACC) standards.

HILS provides the meals on wheels service every day of the year, including bank holidays and weekends. The meals are delivered between 11am and 2pm. You can order meals as a one-off, for a temporary period, or for as long as you would like them. A two-course hot meal costs £8.50. When you order a hot meal, you also have the option of ordering a tea pack, which costs £4.40 and contains a cream tea or fresh sandwich, a dessert and a snack. If you order a tea pack, it will be delivered at the same time as your hot meal and HILS will put it in your fridge for you to enjoy later. (Please note, all prices quoted are correct at the time of printing.)

You can order the meals yourself, or your carers, friends, or family members can order on your behalf. You can order (and cancel if necessary) up to 9.30am on the delivery day.

The service is available to all West Sussex postcodes.

For more information and to order meals, please visit www.hils-uk.org or give the HILS West Sussex team a call on **0330 2000 103** (select option 2). Or you can email westsussex@hils-uk.org.

Keeping warm in winter

In winter, it's even more important to keep yourself well to help avoid colds, flu and other more serious health problems. The West Sussex Wellbeing website offers practical advice on how to keep warm. Top tips include:

- heating your home to at least 18°C (65°F);
- keeping moving – any activity, even cleaning, gets the circulation going and makes you feel warmer;
- wrapping up in several layers of clothing, indoors and outdoors;
- getting your heating system checked to make sure it is working safely and efficiently (make sure you have working smoke alarms and carbon monoxide alarms in your home);
- ordering winter fuel before you need it, so you don't run out; and

- checking pipes are insulated to avoid them freezing, and knowing where to turn off your water in case you need to.

Visit www.westsussexwellbeing.org.uk.

See the NHS website for more information about staying warm in winter. www.nhs.uk/live-well/seasonal-health/keep-warm-keep-well/

For advice and information on keeping your energy bills down, including help with the energy price rises, visit www.westsussexenergy.co.uk.

Keeping cool in summer

Most of us enjoy being outside in the sunshine when the weather is warm. However, it is important to make sure your health does not suffer as a result of high temperatures.

Follow these tips to stay safe in hot weather.

- Keep out of the heat if you can. If you have to go outside try to stay in the shade, especially between 11am and 3pm. Protect your skin with sunscreen of at least SPF 30, wear light clothes and a hat, and sunglasses to protect your eyes against UV (ultraviolet) light.
- Drink plenty of fluids to keep hydrated. Aim to drink six to eight glasses of liquid each day, and more if it's very hot. Avoid drinking alcohol.
- Watch out for signs of your body overheating, including muscle cramps in your legs, arms or stomach, feeling or being sick, dizziness, headache, mild confusion or feeling weak. If you have any of these symptoms, drink plenty of fluids and rest in a cool place. Get medical advice if the symptoms don't ease after doing this.

For further information, visit www.ageuk.org.uk and search 'advice for staying cool in a heatwave' or visit www.nhs.uk and search for 'heatwave: how to cope in hot weather'.

Dementia care and support

Many people with dementia live well at home and continue to do the things they enjoy for a long time after they receive their diagnosis. There is lots of community care and support available in West Sussex to help you live a good-quality life in the familiar surroundings of your own home for as long as possible.

Early diagnosis of dementia gives you and your family the opportunity to plan for the future and get information, advice and support. In many cases, your first point of contact should be your GP for health-care services and a diagnosis, or Adults' Services for most community-care opportunities.

Examples of community care include:

- information, advice and support for you and your family and friend carers;
- advice on equipment and adaptations to your home to make it safer and easier for you to move around and do everyday tasks;

- technology, such as community-alarm systems and tracking devices;
- day services and support groups;
- respite services, including short breaks for your family and friend carers;
- meals on wheels; and
- care and support at home (this may include personal care such as help with bathing and dressing and help at mealtimes).

The Connect to Support website is a helpful starting place for finding out more. Visit the 'Health conditions and disabilities' section of www.westsussexconnecttosupport.org.

Prevention Assessment Team

The Prevention Assessment Team (PAT) provides information, advice and guidance to people throughout the county and directs people to appropriate services to help them stay healthy and continue to live as independently as possible at home, and as part of their local community. The team is made up of our community prevention officers, nurses from Sussex Community Foundation NHS Trust, and community support workers from Age UK West Sussex, Brighton and Hove and Guild Care. The PAT works with people aged 18 and over to provide advice to people who do not receive other specialist health or social care services, and to direct them to services that may benefit them. This service is for people who want, and are able, to act on the information and advice provided, or who have someone who can do this for them. PAT nurses also help deliver the NHS health check programme.

You can contact the PAT Monday to Friday from 9.30am to 3.30pm. Phone **0330 222 24222** or email prevention@westsussex.gov.uk.

Helping you get out and about

If you need support getting out and about, there are various sources of help and advice available,

covering things such as accessible and community transport, Blue Badges and bus passes. Visit www.westsussexconnecttosupport.org/living-independently/getting-out-and-about/.

Staying safe in your home

Staying safe from fire

West Sussex Fire and Rescue Service (WSFRS) offer a number of different home safety checks to help keep you safe in your home.

Making sure your home is a safe place is important for everyone, especially if you smoke, have a physical or sensory disability (eyesight or hearing difficulty), memory problem or long-term medical condition.

If you are concerned about fire safety at home, or you are concerned for a family member or someone else, you can carry out a free online safety check. This will provide step-by-step guidance on how to reduce the risk of fire in the home.

WSFRS also offer Safe and Well Visits to those most in need. This is a free service that involves a member of staff from WSFRS visiting your home to offer advice on how to make it safer and, where appropriate, to fit smoke alarms or other specialist fire-detection equipment, free of charge.

WSFRS may also provide a free carbon monoxide detector, as the people who are likely to have a fire in the home share many of the same characteristics as those most likely to be affected by carbon monoxide poisoning. Staff always carry identification and will contact you to arrange the visit beforehand.

For more information, please call **0345 872 9719** or visit www.westsussex.gov.uk/homefiresafetycheck.

Staying safe online

As more of us are using the internet to keep in touch with friends and family, to shop and to find information, it is important to make sure you know how to stay safe

online. We have a webpage explaining the practical steps you can take to stay safe while using the internet. Topics include creating a strong password, keeping your mobile device safe and secure, scam emails and email security, and keeping safe while browsing the internet. Visit www.westsussex.gov.uk and search under 'staying safe online'.

Avoiding scams and fraud

If you receive an unexpected letter, phone call, email or visitor to your home, be cautious as it could be a scam. A scam will often pressure you to act quickly, ask for confidential information such as your PIN numbers, or include offers that sound too good to be true. If you have been approached by someone and you are not sure if you are being targeted by a fraudster, contact the Citizens Advice consumer service.

Citizens Advice advice line: **0800 144 8848**

You can also call using Relay UK on **18001 0800 144 8848** (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

Lines are open Monday to Friday, 9am to 5pm, but are closed on bank holidays. Calls from mobiles and landlines are free.

Further information:

For practical advice and tips on spotting and dealing with possible scams, visit the following websites.

- www.westsussexconnecttosupport.org/help-to-stay-safe/scams-and-frauds/
- www.westsussex.gov.uk (search under 'Trading Standards')

Dealing with nuisance calls

If you are receiving nuisance phone calls or unwanted text messages, there are things you can do to stop this. You can register with the Telephone Preference Service (TPS) which records your preference to not receive sales or marketing calls you have not asked for.

To register, visit www.tpsonline.org.uk, phone **0345 070 0707** or email tps@dma.org.uk.

You can also buy call blocker devices, and if you are vulnerable to phone scams, we may be able to lend you one for six months.

Visit www.westsussex.gov.uk and search 'stay safe on the phone' to find out how you can apply for a call blocker.

There is also information on how to buy one.

Buy with Confidence

If you need to use the services of any tradespeople, we recommend that you consider using one who is approved under the Trading Standards 'Buy with Confidence' scheme. You can find a directory of traders by visiting www.westsussex.gov.uk and searching under 'approved traders'. Or you can visit buywithconfidence.gov.uk, where you can find an approved Buy with Confidence trader in your area.

Supporting you to live well at home

As you get older or your health changes, you may need some extra support to help you continue to live at home. There are many different solutions and services that can support you.

Technology-enabled care

Technology is transforming our lives and making things easier, safer and more convenient for people. We want to make sure that technology-enabled care is easy to access and is the first choice to help people keep their independence and lead full and healthy lives, whether at home, at work or in their local communities.

Technology-enabled care can include a whole range of different devices and systems that can help you.

These include:

- pendant alarms that connect you to a monitoring centre at the touch of a button;

- systems that help your memory;
- systems that monitor your wellbeing and environment and warn someone you have chosen beforehand if your health deteriorates;
- equipment to detect if you have a fall;
- equipment to monitor your door if there are concerns over you leaving home without support;
- equipment to detect dangers in your home, such as smoke, floods and gas leaks;
- equipment to remind you to take your medication;
- digital support to help you make decisions, manage anxiety and carry out certain tasks; and
- switches to help you use equipment.

In West Sussex, technology-enabled care is provided by NRS Healthcare, following a referral by a health or social care professional. NRS Healthcare also provide technology-enabled care to private customers, as do a wide range of national and local providers.

To find out more about the technology-enabled care services that are available where you live, contact our Adults' CarePoint by calling **01243 642121** or using the 'Contact us' form on the 'How to get adult social care support' section of our website.

You can also call using Relay UK on **18001 01243 642121** (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

For more information, visit www.westsussexconnecttosupport.org and search under 'Equipment'.

Equipment

There is a wide range of equipment to support you to manage everyday tasks and stay independent. We can provide you with information and advice on where to get equipment to help you if you would like to buy this yourself. Or, after assessing your needs, we can provide equipment to help with activities such as:

- getting into and out of bed;
- going to the toilet;
- bathing; and
- getting about at home.

For more information, visit www.westsussexconnecttosupport.org/living-independently/equipment.

We lend the equipment to you free of charge through the Community Equipment Service, which is provided by Millbrook Healthcare. The service is available for anyone who lives permanently in West Sussex, or who is registered with a West Sussex GP surgery. One of our staff will talk to you to identify what you may need and what we have available.

For more information contact our Adults' CarePoint by calling **01243 642121** or using the 'Contact us' form on the 'How to get adult social care support' section of our website. You can also call using Relay

UK on **18001 01243 642121** (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

You can find out more about Millbrook Healthcare by visiting their website at www.millbrookhealthcare.co.uk/pages/west-sussex-community-equipment-service or phoning **0345 127 2931**.

If you need to hire a wheelchair the British Red Cross are able to assist. There are other local services available too.

Visit www.redcross.org.uk/get-help/hire-a-wheelchair or call **0300 456 1914**.

For a permanent or made-to-measure wheelchair, visit sussexcommunity.nhs.uk and search under 'wheelchair and seating service'. A referral may be required from your GP or current Allied Health Professional.

Occupational therapy

Community occupational therapy can make it possible for you to live more independently and reduce the need for help from others. Staff from our occupational therapy service will provide you with information and advice. They can also connect you to support in your local community, or they may provide equipment or make arrangements to adapt your home.

You can ask for support by contacting our Adults' CarePoint by calling **01243 642121** or using the 'Contact us' form on the 'How to get adult social care support' section of our website. You can also call using Relay UK on **18001 01243 642121** (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

Regaining Independence Service

To help you regain your independence, staff in our Occupational Therapy Service work alongside ECL (our care provider) to provide you with a short-term reablement programme in your own home. If you live in your own home and you have difficulty carrying out day-to-day activities, this service can help you re-learn how to do things such as:

- getting dressed;
- walking around your home and accessing your local community;
- washing or bathing; and
- making hot drinks and meals.

You may need this service after a stay in hospital, or just because you have not been coping as well as you would like at home.

The service is free for the period of reablement your occupational therapist has identified that you need. If you still need support after the reablement programme ends, your occupational therapist will look into longer-term arrangements to help you stay at home. If you would like to discuss whether this service is right for you, please contact us by calling **01243 642121**

or using the 'Contact us' form on the 'How to get adult social care support' section of our website. You can also call using Relay UK on **18001 01243 642121** (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

Learning Disabilities Health Facilitation Team

This team of nurses specialises in supporting people with a learning disability to access health care. The team works with GPs and hospital staff and can help you when you go into hospital or go to an outpatient appointment.

Learning Disabilities Health Facilitation Team,

Sussex Community NHS Trust,
Horsham Hospital, Hurst Road ,
Horsham, West Sussex

Phone: **01403 620438**

Email: sc-tr.ldhf-horsham@nhs.net

Opening hours: **Monday to Friday, 9am to 5pm**

Website: www.sussexcommunity.nhs.uk/patients-and-visitors/services/learning-disabilities-health-facilitation-team

Support at Home after Hospital

Age UK West Sussex, Brighton and Hove work in partnership with Guild Care and Carers Support West Sussex to provide a Support at Home after Hospital service. This service is for older people in West Sussex who live alone, and family and friend carers, to help them recover after a hospital stay.

This service is for:

- people aged 65 or over;
- older people living alone;
- family or friend carers aged 18 or over who have been in hospital or who are caring for someone who has just come out of hospital; and
- people who are due to be discharged or have just returned from hospital.

Support at Home after Hospital will provide a volunteer to visit you in your home for up to six weeks to support you while you regain your confidence and independence. Some of the ways the volunteer could help you include:

- visiting you for a chat;
- carrying out small practical tasks inside and outside your home;
- helping you to get your prescriptions and shopping;
- supporting you to attend your hospital or doctor's appointments;
- helping you with your caring role, for example, staying with the person you care for while you go out;
- providing information on other services and contacting services on your behalf; and
- helping with finances, paperwork and benefit entitlements.

There is no charge for this service.

Please note the service cannot help with personal care, dressing wounds, lifting, counselling and administering medication. However, it can support you to find the help you need. Although the service cannot do your shopping for you, it can pick up essential items while supporting you to find a shopping service that meets your needs.

To arrange this service, please contact Age UK West Sussex, Brighton and Hove. Or you can ask a hospital ward nurse, social worker, GP, friend or relative to contact them on your behalf.

Age UK West Sussex, Brighton and Hove,

The Laburnum Centre, Lyon Street,
Bognor Regis, West Sussex PO21 1UX

Supported Hospital Discharge - Home First

Hospitals are the right place to be when you need medical or surgical treatment. However, it is proven that people who are medically fit recover better at home than in hospital.

Supported Hospital Discharge is an approach where health and social care professionals work together to help you to recover at home, with the right support, whenever it's safe to do so.

The services provided by Supported Hospital Discharge are led by Sussex Community NHS Foundation Trust, who will support you for the first few days you are home. After you have been assessed at home, Sussex Community NHS Foundation Trust will arrange the most appropriate service to support your needs.

Supporting you to leave hospital - Discharge to Assess with Reablement Service

We have a 24-hour service which can support you to leave hospital and continue your recovery and reablement (helping you regain your independence). The service provides 24-hour support in a care home where there are social care workers, occupational therapists and trained care staff.

The service plays an important role in supporting you to safely leave hospital as soon as possible and makes sure no long-term decisions about your care and support needs are made in hospital.

The service is free for the period of reablement that your occupational therapist has identified that you need.

For more information, read our leaflet, 'Supporting you to leave hospital - Discharge to Assess with Reablement'.

To read this online, visit www.westsussex.gov.uk and search under 'Adults' social care publications' to find a list of all our information leaflets. Or you can ask for a paper copy of the leaflet by contacting our Adults' CarePoint by calling **01243 642121** or using the

'Contact us' form on the 'How to get adult social care support' section of our website.

You can also call using Relay UK on

18001 01243 642121 (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

Support for family and friends who provide care

A carer is someone of any age who regularly provides unpaid support to a family member or friend who could not manage without their help. We want to make sure that people who regularly provide unpaid care are supported and have their needs and wellbeing taken into account.

If you are an adult carer you have the right to have your needs assessed, even if the person you care for has not had their needs assessed or is not receiving any services from us. The person you care for does not have to live with you, but they must live in West Sussex. You do not need to live in West Sussex for us to assess your needs.

Carers Support West Sussex is a specialist carer support organisation that has a contract with us to carry out carer assessments on our behalf.

They will look at what you have told them and consider what support is available to you through your own networks and through community services provided by carer organisations.

If your needs cannot be met in this way, we will work out how much money may be available to pay for support to meet your needs, or we may provide extra support to the person you care for if this would help you.

Carers Support West Sussex provides practical information, advice and emotional support, making sure each adult carer knows what help is available.

Support from Carers Support West Sussex includes:

- a helpline which provides practical information and support;

- access to respite care services and short breaks from your caring role;
- a network of local support groups;
- a range of equipment to support the person you care for to live independently;
- a carer emergency contact scheme for if you suddenly become unwell and cannot carry out your normal caring role;
- a discount card for carers (in partnership with local businesses);
- benefits advice; and
- the opportunity to become involved in shaping local services through the Carers Voice Network.

You can also find information, advice and resources specifically designed for family and friend carers on our West Sussex Connect to Support website at www.westsussexconnecttosupport.org/carers-hub.

Carers Support West Sussex

Carers Health Team

This is a team of health professionals who work on a one-to-one basis with family and friend carers whose health is beginning to suffer as a result of their caring responsibilities. You can be referred to this service if there is evidence that your caring role is having a significant effect on your physical or emotional health (or both). You can be referred by your GP, health and social care services, voluntary organisations or carer's support services. You can also refer yourself.

Phone: **01243 623521**

Email: sc-tr.carerwellbeing@nhs.net

Young carers

If you are a young carer under the age of 18, caring for someone with a disability or long-term illness who can't manage without your support, you have the right to have

your needs assessed, regardless of who you care for, what type of care you provide, or how often you provide it. If you are aged 16 or 17 you also have the right to a transition assessment to look at the support you may need as you turn 18 and become a young adult carer.

West Sussex Young Carers (Family) Service use a 'whole family' approach to meet the needs of young carers. The team make sure that young carers are only providing care that is appropriate for their age and that they have the best possible opportunities, in terms of education, career prospects, friendships and relationships. Services provided may include:

- a whole-family assessment, looking at the strengths, challenges and support needs of each person in your family;
- practical information and support for your whole family;
- time out from your caring role to do the things other children or young people enjoy doing;
- access to a range of equipment to help with your caring role;
- counselling and play therapy; and
- putting you in touch with positive role models through our volunteer mentoring and transport projects.

This team also develop training and resources for other professionals to help them identify and provide appropriate support to young carers and their families.

Email: youngcarers@westsussex.gov.uk (for general enquiries, to make a referral or ask for a referral form)

How we support people with social care needs

Understanding your social care needs

Our aim is to support you to live independently in your own home for as long as possible. We provide information and advice and can direct you to support

that is available in your local community to prevent or delay the increase of your social care needs.

We may offer you a social care assessment to identify what you would like to achieve and to talk about the options that are available to you. You may find it useful to carry out a self-assessment, which helps you to think about your circumstances and what needs to change. You can use the self-assessment form to help you plan and pay for your own support.

If you want to contact us about a social care assessment, you can send us your filled-in self-assessment form for us to consider as part of our discussion with you. You do not have to fill in a self-assessment form before contacting us.

There is also a self-assessment form for family and friend carers and a financial self-assessment to help you think about your finances and how you will pay for your care.

You can find the self-assessment and financial self-assessment forms on our Connect to Support website at www.westsussexconnecttosupport.org in the Care Options section. Or you can ask our Adults' CarePoint for a paper copy. Call **01243 642121** or use the 'Contact us' form on the 'How to get adult social care support' section of our website.

You can also call using Relay UK on **18001 01243 642121** (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

Who is entitled to an assessment?

If you think you need social care services, you can ask us to assess your needs. This does not mean we will pay for your care at the end of the assessment, as you may not be eligible for funding.

Family and friends who are carers also have the right to an assessment.

A member of staff will talk to you about your circumstances. If you have filled in a self-assessment

form, the social care worker will look at what you have told us as part of your assessment.

If urgent action is needed to protect your safety and reduce serious risk, we can provide support before you have a full assessment of your needs.

How we work out if you are eligible for funded support

We make sure that we treat everyone fairly, and that people who are most in need receive the highest level of support. To do this we use national guidelines to help us understand whether people's needs mean they are eligible to receive funded support from us. This applies to people who need social care and their family and friend carers.

When considering whether you are eligible, we use information from your assessment and look at the goals or outcomes you want to achieve.

You will not be eligible to receive a service paid for by us if you:

- have savings or investments of more than £23,250 (if you are receiving care in your own home or community care, this does not include the value of your main or only home) or you have enough income (not including earnings from paid employment) to pay for your own care; and
- can arrange the care for yourself, or there is someone willing and able to do this for you.

For more information and advice, go to the section 'Paying for your own care if you have investments and savings of more than £23,250' on page 20. You should also consider getting independent financial advice, to make the best use of your assets and money (see page 22 for more details).

If you are eligible for support paid for by us, a funding allocation system will calculate how much money will be available to buy support to meet your care needs within your own home. This money is your personal budget. You may have to pay towards the cost of your social care and support. This is known as your contribution.

We can pay your personal budget in a number of ways.

Direct payments: This is where we pay your personal budget direct to you, or to someone, such as a family member, who can act on your behalf if you are not able to agree to receive direct payments. We load your personal budget onto a prepaid card, and you use the money to pay for support to meet your care needs.

If you feel that you cannot manage a prepaid card account and you would like to discuss another way to receive your direct payments, speak to your social care worker. They will be able to give you advice and explain your options.

Council-managed budget: This is where we manage the budget and arrange social care support for you.

You can also have a combination of these choices for receiving your personal budget.

If you are not eligible for funded support, we will provide information and advice to help you arrange the support you need.

If your circumstances change, please contact us again to discuss your social care needs.

If you would like more information about the way we deliver social care support, please contact our Adults' CarePoint by calling **01243 642121** or using the 'Contact us' form on the 'How to get adult social care support' section of our website. You can also call using Relay UK on **18001 01243 642121** (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

Planning your support

After discussing your assessment with us, you will need to develop a support plan with one of our staff. The plan will describe how you will use your personal budget to achieve the results you want (your outcomes). Our staff will help you understand your options and how to get the best support with the money available to you. They will help you think about different ways that you can get support, and they can find the services you need and work out the costs.

We will regularly review your support plan with you to consider any change in your needs or circumstances.

Help with arranging and buying services in the community

If you have eligible social care needs but have savings or investments over £23,250 (not including the value of your main or only home), you will have to pay for your own care. If this applies to you, we can help you arrange and buy the services you want. We call this a brokerage service. The brokerage service only covers services in the community which we have a legal duty to provide in order to meet your eligible social care needs.

We charge £212 for this service. If you want us to review your support again at a later date, we will make another charge of £212. If you want us to buy services for you and then reclaim the cost from you, we will charge you an ongoing charge of £6.50 per week.

If you do have to pay for your own care, but you cannot make decisions and arrange your own support, and you have no one to help you, we will do this for you free of charge. Once you have a financial representative, you will have to pay an ongoing fee of £6.50 per week if we continue to arrange and buy services for you. A financial representative will usually be appointed by the Court of Protection.

Paying for your own care and support

We can provide you with information, advice and help to plan the support you need. For example, we can give you information about care providers, prevention and wellbeing services, equipment, community activities and care funding advice.

You can find information about all these services in this guide and also by visiting the West Sussex Connect to Support website at

www.westsussexconnecttosupport.org.

Or you can contact our Adults' CarePoint by calling **01243 642121** or using the 'Contact us' form on the 'How to get adult social care support' section of our website.

You can also call using Relay UK on

18001 01243 642121 (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

The role of the Care Quality Commission

The Care Quality Commission (CQC) is the independent regulator of all adult social care and health services in England. All domiciliary care services that provide personal care, care homes and private health-care services must be registered with the CQC.

The CQC's job is to make sure all care homes and domiciliary care providers meet the Government's fundamental standards of quality and safety. You can get copies of the CQC's inspection reports on each home and domiciliary care provider from the CQC or from the organisation itself, and you should take these into account when making a decision.

If an inspection of a care home or domiciliary care provider highlights outcomes that do not meet the CQC's standards, the CQC gives the service a period of time to put any problems right. If the service fails to do this, the CQC can take enforcement action which could mean their registration with the CQC is cancelled.

If you want to find out what to expect from a good service, go to **www.cqc.org.uk/care-services/what-expect-good-care-service**.

There is useful information about all registered care services, and details of any review of a care home or care provider, on the CQC's website at **www.cqc.org.uk**.

Or you can phone **03000 616161** or fill in an online contact form at **www.cqc.org.uk/give-feedback-on-care**.

Care and support at home

If you, or someone you are supporting, are finding it increasingly difficult to manage day-to-day tasks, there are different options available to help you to continue to live safely in your home, or in alternative housing with support. We recommend that you consider these options and decide which would best suit your needs.

Care and support at home, sometimes called domiciliary care, home care or care at home, helps you stay independent by supporting you to manage many aspects of daily living, including your personal care.

These services are provided by independent or voluntary organisations and they can prevent the need for residential or nursing care.

Care and support at home may help you with:

- getting up and going to bed, washing and bathing (personal care) and taking medication;
- heating ready-prepared food or preparing simple meals such as breakfast;
- settling back in at home following a stay in hospital;
- housework such as washing and cleaning;
- cooking, shopping, collecting prescriptions and other tasks; and
- getting out and about.

Organisations that provide personal care as part of their care and support at home service must be registered with the CQC.

Care workers can also stay with you overnight or provide company for you while your family goes out.

Help can vary from an hour a week to help several times a day, or a live-in service in your home. The pattern and type of service should be designed around your needs and preferences.

How can I find someone to help me?

There are different types of support available depending on your needs.

- **Employ your own care worker** – if you receive a direct payment from us, you can employ your own care worker (who does not need to be registered with the CQC) or make arrangements with a care agency direct. This gives you more choice in who provides support to you, and some care workers or agencies may specialise in supporting people with complex needs and dementia care if you need this.
- **Employ a personal assistant** – if you receive a direct payment from us, you can use it to employ a personal assistant to support you with various aspects of daily life.
- **Companies providing personal care** (who must be registered with the CQC) – these are listed in this guide on pages 48 to 66. You can contact them direct to find out more about their services. They will be happy to meet you to discuss your needs.
- **Live-in carers** – live-in carers provide support to meet your needs, including providing personal care and companionship. This can often help you to stay in your own home. You can find a list of live-in care providers on pages 66 to 74.

How much will it cost?

Care and support at home companies all charge different rates, and the amount you are charged will depend on the service you need and when you need it. If you are looking for care or support in your own home from a company providing personal care or a personal assistant, you could expect to pay between around £15 and £35 an hour depending on the type of service. Live-in carer costs can start from around £800 a week, but again this will depend on your needs, the service to be provided and the company providing the service.

There are standards and regulations in place to make sure that care workers employed by companies providing personal care are capable, trustworthy and reliable. Personal assistants who are privately employed are not regulated by the CQC. You can get support and advice on employing a personal assistant (using your direct payment) from Independent Lives (see page 18 for contact details), who provide this service on our behalf.

If you are buying care privately, contact the provider direct to ask about their charges.

What should I do next?

When you have found a suitable provider of care and support at home, arrange an appointment for them to visit your home. Use the checklist at the front of this guide to make sure you are satisfied with everything they are offering. It may be helpful to have someone with you at the appointment, such as a relative or friend.

When you choose your care provider they will give you their customer (or service user) pack, which will include details of what you and they have agreed, how you can make changes to the services you receive, and what to do if you are not satisfied with their services. They must give you this information by law. The care provider will also need to check, at least twice a year, that you are satisfied with the services you are receiving, and they will review these with you.

Regulated services

If a care provider is registered with the CQC, you can expect:

- the provider to have suitably qualified and skilled staff to meet your needs;
- your support to be provided at an agreed time and the tasks you have arranged to be carried out to a high standard;
- the same person to carry out the tasks each time, unless they are unwell, in which case the provider should arrange for someone else to carry them out; and
- the provider to have a complaints procedure in place.

Non-regulated services

Some providers do not need to register with and be inspected by a regulatory body such as the Care Quality Commission, as they do not offer personal care, such as washing and dressing. These non-regulated providers offer help with shopping, cleaning and household tasks, and could also accompany you when you are out and about.

Non-regulated providers do not have to employ their staff and often act as introductory agents, providing workers to carry out tasks around your home. This means that you, as the customer, may become the 'employer', and you need to understand the responsibilities that this involves (for example, when paying wages and dealing with tax and National Insurance contributions).

You should ask the provider:

- for evidence of the skills and experience their staff have;
- whether they employ their staff or if they act as an introductory agent;
- if they will carry out an assessment of your needs so that they understand the support you need (they do not have to carry out an assessment but it can set clear expectations for you and the provider); and
- whether Disclosure and Barring Service (DBS) checks are carried out for their staff (as their service is not regulated, their staff do not have to have DBS checks, but as they would be supporting you in your own home, a DBS check would offer a level of reassurance).

Supported living

Supported-living providers can help people with lifelong disabilities, autism or mental-health needs to live as independently as possible and to be a part of their community. A wide range of support is provided, and services are designed around your needs.

Many young adults and working-age people with care needs choose supported living as the best care option

for them. It can also support people to stay in their own homes rather than moving to long-term residential care.

Directly Provided Services

Directly Provided Services (DPS) offers a range of social care services which we run, including day support and day opportunity services.

Day support and day services can help you stay independent and can give your carers a break. The focus is on providing a more local and community-focused service.

Day services can include:

- specialist support if you have complex needs;
- support with personal care and medication;
- support to help you regain, improve or maintain daily living skills and mobility;
- support to meet new people, make and maintain friendships, and take part in social activities, including hobbies and interests, to reduce isolation;
- support with building your confidence and being part of the community (this may include support to travel independently);
- work experience, learning and training; and
- a main meal and refreshments.

To help you regain your independence and get support to meet your needs within the wider community, services will be available on a short-term basis. However, we can provide some specialist support if you have long-term or complex social care needs. Some independent organisations also provide similar services.

These services are aimed at older people, people with dementia, adults with a learning disability or autism, people who may have a physical disability, sensory impairment (sight or hearing difficulty), memory loss or a brain injury.

We may need to assess your needs before you can use the day services that we provide and manage. Other independently managed day services may accept you without an assessment. For more details, please contact the relevant day-services providers or contact our Adults' CarePoint by calling **01243 642121**. You can also call using Relay UK on **18001 01243 642121** (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone). Or you can use the 'Contact us' form on the 'How to get adult social care support' section of our website.

There is more information on the West Sussex Connect to Support website at **www.westsussexconnecttosupport.org/directly-provided-services/day-opportunity-services/introduction/**. You can also find information

about support that is available in your local community on the West Sussex Connect to Support website. Visit www.westsussexconnecttosupport.org and search under 'Getting out and about'.

Housing with care and support

One of the hardest decisions you might face involves choosing whether to stay in your current home or move to a new home which might be more suitable.

The Elderly Accommodation Counsel (EAC) provide free and impartial advice on housing and care needs. Their website at www.housingcare.org contains lots of information to help you make informed choices about your housing needs. This includes advice on whether to move, and where to get good financial advice, as well as up-to-date information on a range of accommodation and housing options throughout West Sussex and in other parts of the UK.

The EAC also provide an advice line.
Phone: **0800 377 7070**

Sheltered- and retirement-housing options

There is a wide variety of retirement- and sheltered-housing properties available in West Sussex, both to buy and to rent. These housing schemes provide independent living for people who value the security of living in a property that was designed with older people in mind. Most schemes are restricted to people aged 60 or over, but this varies. Many people living in this type of accommodation still live very active lives but welcome the fact that they are less likely to need to move if their health or mobility deteriorates.

Sheltered- and retirement-housing properties are available to buy on a leasehold basis or to rent through some local authorities and housing associations.

To find out about vacancies in local-authority and housing-association schemes, please contact your local district or borough council. You can find details of most sheltered- and retirement-housing schemes in West Sussex at www.housingcare.org.

Extra-care housing

Extra-care housing is designed to be a home for life for people with care and support needs, including those with a health condition that may deteriorate over time.

Extra-care housing creates an environment where you can live independently at home, without being socially isolated or struggling to cope on your own.

Extra-care housing is fully self-contained with either one or two bedrooms, and with level access which makes it suitable for those with limited mobility or a wheelchair. Bathrooms have accessible showers, and other features are carefully designed to promote independence.

Many schemes will also include a restaurant, residents' lounge, facilities for activities and services, gardens and growing areas. Extra-care flats are available to rent and buy, through leasehold shared ownership.

Most schemes have care teams on duty 24 hours a day, seven days a week. This type of service provides an attractive alternative to residential care, where people can maintain their independence and have their care needs met. Extra-care can be an alternative option to residential care.

We are encouraging both rented and leasehold shared-ownership schemes so that there is a real choice of extra-care housing in West Sussex.

Extra-care housing is not just for older people. It is also suitable for working-age adults with disabilities and care needs.

To ask about extra-care housing in West Sussex, please contact our Adults' CarePoint by calling **01243 642 121** or using the 'Contact us' form on the 'How to get adult social care support' section of our website. You can also call using Relay UK on **18001 01243 642 121** (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

You can also contact housing providers direct. For more information about extra-care schemes, please visit www.housingcare.org.

Shared Lives

Our Shared Lives Scheme is registered with the CQC. The scheme consists of over 100 households where approved, trained and highly skilled Shared Lives carers open up their own family homes to provide long- or short-term care and support. The Shared Lives Scheme can be offered to any adult in West Sussex with assessed care and support needs and, in some cases, to young people from the age of 16. The scheme is available to people with a range of different needs, including people with learning or physical disabilities, mental-health needs or dementia, and vulnerable older people.

Shared Lives can provide:

- longer-term accommodation and support;
- short breaks (for example, to give the main carers a break, to support people as they move towards adulthood, and in emergency situations); and
- day-time support involving sharing the home, family and community life of the Shared Lives carer.

The scheme works to:

- support people to be actively involved in their local community;
- enable people to live the life they choose;
- listen to people and treat them with respect, kindness and dignity;
- support people to live in a place they can call home;
- make sure people have a say in every aspect of their care and support;
- support people to maintain friendships and relationships, as well as to make new ones; and
- support people to maintain their health and wellbeing.

Care homes and care homes with nursing

The decision to leave your home and move into residential care is not an easy one, and it can take some time to adjust to the change.

Before considering moving into a residential care home, we strongly recommend that you look into all of the options that are available to support you to live safely at home. Wherever possible, care and support services will help you to continue living at home (see page 16).

Other options include sheltered or extra-care housing (see page 19). These can help you to maintain some independence with the added security of regular care and support when you need it.

If you do decide that a residential care home or a care home with nursing is the best option for you, this section will help you to make informed decisions.

We strongly recommend that you get specialist financial advice on paying for long-term care as soon as possible. Please see information about the Carewise care funding scheme on page 22.

Residential care home

Staff at a residential care home can help with personal care such as washing, bathing or showering, getting up and getting dressed, and can support you with eating and drinking. Help is available 24 hours a day and meals are provided, usually with a choice of main meal. Activities and outings are usually available, and visitors are always welcome.

Care home with nursing

Care homes with nursing generally care for people who have complex or changing care needs and need the sort of care that can only be provided under the supervision of a qualified nurse. By law, care homes with nursing must have a qualified nurse on duty 24 hours a day. In West Sussex, most care homes with nursing are owned and managed by independent organisations.

Can I choose the care home?

If you are paying for your care, you can choose any home that you can afford to pay for. If we are paying

for your place in a care home, you can choose any home as long as:

- the accommodation is suitable for your assessed needs;
- the cost of your care is not more than the amount stated in your personal budget for accommodation of that type or, if it is more expensive, you or someone else on your behalf agrees to cover the extra cost for the full length of your stay;
- the accommodation is available; and
- the provider of the accommodation is willing to enter a contract with us to provide the care at the rate stated in your personal budget.

At the front of this guide there is a checklist of the things you may want to consider when making your choice. It may be helpful to take the checklist with you when visiting care homes.

As a quick guide, you may want to consider:

- the current CQC report and rating for the home;
- whether there is a registered manager;
- whether the staff seem caring and attentive;
- whether the residents seem happy and involved; and
- whether there is clear information on how to make a complaint.

What kind of accommodation can I expect?

A care home will normally offer you a single room. Some homes will offer you your own bathroom, but in others the bathroom and toilet are shared. As well as your room, the care home will provide a lounge, dining room and other shared areas.

How do I pay for the care?

In West Sussex many people who move into a care home can meet the costs themselves from their investments, savings, benefits, pension and other income.

Other people who have more limited investments and savings may be eligible for financial help from us towards the cost of care.

The fees charged by care homes vary considerably. It is sensible to compare the fees of different homes and check what items and services are included within the fees and what they charge extra for.

Paying for your own care if you have investments and savings of more than £23,250

If you have more than £23,250 in investments and savings (this may include the value of your main or only home) and can afford the full cost of your care, you can make your own arrangements to go into the care home of your choice and pay for the care you need. Whatever your personal financial circumstances, you may be eligible for some financial help from the Department for Work and Pensions (DWP).

It is important that you receive all the benefits and payments you are entitled to, and that you get independent financial advice when you are choosing a home to meet your needs. This can help make sure that you can afford to pay for your care, and avoid the need to move to another home with lower fees.

Carewise is a care-funding scheme that helps people get good information and advice about the range of care and support options available to meet their needs and the most cost-effective ways of paying for long-term care. See page 22 for more information.

It is important that you make sure you can afford the fees for the foreseeable future. If your investments and savings fall below £23,250 you may become eligible for financial support from us, following an assessment. We will only be able to help with your fees in the future if we have carried out an assessment of your care needs, the home of your choice is suitable for your needs and the fees are not more than we would normally expect to pay.

The most we would normally pay for your care are the rates set out on page 23.

What happens if I run out of money and can't pay my care fees?

Your savings can reduce very quickly when you are paying care home fees. This can be a difficult and unsettling situation and is one of the reasons why we recommend you get specialist independent financial advice as soon as possible, and preferably before you move into your care home (see the Carewise section on page 22).

Contact us six months before your investments and savings reduce to below £23,250 (or sooner if possible). We will refer you to a welfare benefits adviser for an initial review. We also recommend that you talk to your care provider to explain your situation.

Contact Adults' CarePoint by phoning **01243 642121** or using the 'Contact us' form on the 'How to get adult social care support' section of our website. You can also call using Relay UK on **18001 01243 642121** (from

a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

Financial help and support you may be entitled to

If you have investments and savings of more than £23,250 (this may include the value of your main or only home), you will have to pay for residential or nursing home care yourself. The value of your main or only home will not be taken into account when we are deciding if you are eligible for financial help from us if any of the following people continue to live there.

- Your partner
- Your child who is aged under 18
- A relative who is aged 60 or over or is incapacitated

A person may be considered to be incapacitated if they are receiving one or more of the state benefits listed below (or a similar benefit) or if their situation qualifies them to receive one of the benefits.

- Employment and Support Allowance (support component)
- Universal Credit (limited capability for work and work-related activity component)
- Disability Living Allowance
- Personal Independence Payment (PIP)
- Attendance Allowance
- Constant Attendance Allowance
- Armed Forces Independence Payment

Even if you are paying for residential or nursing home care yourself, you can still ask us to assess your community-care needs. If you are moving into a care home, you may be entitled to some of the following financial help and support.

- Attendance Allowance
- Personal Independence Payment
- 12-week property disregard (where we do not take into account the value of your property for the first 12 weeks after you move into the care home, unless your property is sold within that 12-week period)

- Deferred payment agreement (a legal agreement, similar to a mortgage, that allows you to use the value of your property to pay the cost of your residential care at a later date)
- NHS-funded nursing care contribution (see below)
- NHS continuing healthcare funding

If you are moving into a care home with nursing (a nursing home) you may also be eligible to have part of your fees paid by a contribution from the NHS. This payment is called an 'NHS-funded nursing care contribution' and is paid to the care home. A nurse will assess your needs to see if you need care from a registered nurse. If the assessment shows you do need care from a registered nurse, the NHS may pay £235.88 as a contribution towards the weekly fees.

You will still have to pay for your accommodation and personal care.

This care guide includes a benefits and payments checklist to help you understand the benefits you may be eligible for.

Specialist independent financial advice about long-term care in a residential or nursing home

If you have to pay the full cost of your residential or nursing home from your own investments or savings, you are a 'self-funder'. Some residential or nursing homes will ask for evidence that you can pay your care fees for at least the first two years. It is important that you understand all the options for paying for long-term care and we strongly recommend that you get specialist advice from a qualified independent financial adviser as soon as you need care. The independent financial adviser will help you find out if you are entitled to any benefits and payments and help you to plan and make well-informed decisions about the best way to pay for your care and support over the long term.

Advising older people about their financial circumstances and needs is a specialist area and financial advisers who provide this service need to have extra qualifications,

skills and abilities. Specialist independent financial advisers can guide you through your financial options if you will be paying for your own care. There may be a number of financial solutions to help you to keep your investments and savings while paying for your care.

It is important to plan for your long-term care to make sure that you consider all your options, invest your savings and any money from selling your property (if this applies) wisely, and protect any remaining money you have. If you are considering a residential or nursing home for yourself, or an older relative, it is in everyone's best interests to get independent financial advice before making important life-changing decisions.

How Carewise can help

Carewise is an important part of the Adults' Services information and advice service. We set it up, working with Age UK West Sussex, Brighton and Hove, the Society of Later Life Advisers (a not-for-profit consumer organisation) and West Sussex Partners in Care, to help people make well-informed choices when planning long-term care for themselves or a relative.

Carewise has a panel of care fees specialists who are qualified independent financial advisers specialising in providing advice about choosing and paying for long-term care. The advisers:

- are accredited by the Society of Later Life Advisers;
- are approved under the Trading Standards 'Buy with Confidence' scheme;
- have a Disclosure and Barring Service check; and
- have received training on safeguarding adults at risk of neglect or abuse.

The Carewise-approved care fees specialists are independent of us and other Carewise partners. The first consultation with a Carewise care fees specialist is free. The care fees specialist will be clear with you about the cost of any future advice.

Carewise also provides access to information and advice about care and support options through Age UK

West Sussex, Brighton and Hove, who offer a telephone and face-to-face service. It also provides a free money advice service, which offers independent, confidential and jargon-free information on all matters relating to personal finance.

Who makes decisions if you can't?

No one else can make decisions about your financial affairs, health and welfare unless you have given them authority to make those decisions on your behalf. The easiest and quickest way to make these arrangements is through a lasting power of attorney (LPA). This is a legal document that lets you appoint one or more people, known as 'attorneys', to help you make decisions or to make decisions on your behalf when you can no longer make them for yourself. If you want to appoint an LPA, you can only do this if you have the mental capacity to do so. If that's not possible, the court of protection will need to be involved in the process.

There are two types of LPA:

- one for property and financial affairs; and
- one for health and welfare.

You can choose to appoint one type or both. There are two separate applications, and you pay two separate fees. You need to register the LPA with the Office of the Public Guardian before it can be used. Or the attorney can register the LPA for you. You will be told if this happens so you will have a chance to object to it. Unless you choose to instruct a solicitor to draft the application documents for you, there is no cost to set up an LPA until you ask the Office of the Public Guardian to register it. If you are on a low income, you may get the registration fee reduced. It can take at least 10 weeks to register an LPA.

Residential care – local-authority funding

If our assessment has shown that you need care in a care home, you may be eligible for financial help towards the cost of your care. We will work out the amount you will be expected to contribute towards the cost of your care according to a national set of rules.

This involves looking at your income, including most benefits and pensions, your savings and investments, and the value of any property you own.

Generally, most of your income will go towards the cost of your care. For every £250 (or part of £250) of investments and savings you have between £14,250 and £23,250, you will have to pay £1 towards the cost of your care. If you have property, savings and

investments of more than £23,250, we will expect you to pay the full cost of your care until the value of your savings and investments reduces to £23,250.

Once we have agreed how much you must contribute to the cost of your care, we will make up the difference between your contribution and the care home's fees as long as the home does not charge more than we would expect to pay for similar accommodation.

If the value of your property is included in the assessment for your contribution, we can help with the cost of the care home's fees if you agree to enter into a deferred payment agreement. Under a deferred payment agreement, any care home fees are usually paid back by selling your home and using the money to repay what is owed (the deferred payment). You can choose to sell your home and pay off the deferred payment at any time. Or you can keep your home during your lifetime and the deferred payment will be paid out of your estate after your death.

We charge fees to arrange and manage a deferred payment. The fees cover the costs of legal fees, Land Registry fees and administrative costs. There is a one-off administrative charge of £670 and, if a property valuation takes place, you will have to pay a separate charge of £326. You will also have to pay an ongoing weekly administrative charge of £10.

We will charge interest on the deferred payment in line with the national interest rate that local authorities can charge.

The table below shows the rates that we will pay towards residential care. The rates are valid from April 2024. (These are indicative rates, which means that they are not fixed.)

Care home	West Sussex County Council's indicative rate for 2024 to 2025
Person who is frail with intensive or complex physical care needs (Band P)	Standard £760.00
	Enhanced £850.00
Person who needs specialist dementia care (Band C)	Standard £875.00
	Enhanced £955.00
Person with needs relating to substance misuse, learning disability, mental health, physical disability	Agreed on an individual basis

Enhanced rates are paid for homes within the Adults' Services Northern area and Northern Chichester (homes listed in this West Sussex Care Guide under Midhurst, Pulborough and Billingshurst, Eastbourne and West Lavington).

Care home with nursing

We pay £875 (standard) or £925 (enhanced) a week for the personal care and accommodation of a person in a care home with nursing. If you are moving into a nursing home and an assessment shows that you need care from a registered nurse to meet your care needs, the NHS-funded nursing care contribution (see page 25) is paid direct to the care home by your local Integrated Care Board (ICB).

Personal expense allowance

If we pay for your care, you are entitled to a personal expense allowance of £30.15 a week to spend as you choose. However, the Department of Health says that you should not use this to top up the care you receive or to pay for services which the care home should include as part of your care.

What is included in the fees for a care home?

Generally, care home fees cover all the normal things a registered care home or nursing home would be expected to provide for you. The care home should not normally ask you to pay any more for your daily living costs. You may, however, have to pay extra for things like hairdressing, dry-cleaning and newspapers. You will have to pay for your own personal items such as clothing and your choice of toiletries.

Top-up and third-party contributions (someone else paying a contribution towards your care costs)

You may still choose to go to a home that costs more than the amount of funding you are entitled to if someone else, such as a relative, friend or charity, agrees to pay the extra amount for as long as you are in the home. This is called a third-party contribution or a top-up. There are some limited circumstances where you can pay the difference yourself (this is known as a 'self-top-up'), and your social care worker will discuss this with you if it applies to you.

Under this arrangement, the other person (or you if you are paying a self-top-up) pays the difference between our assessed personal budget and the actual cost of the care home. We may try to find you alternative accommodation if you or the other person fails to pay a necessary top-up.

Before someone agrees to pay a contribution towards the cost of your stay in a care home, they should be aware that the amount could change at any time.

We need to check that they have enough money to pay the top-up, so we will ask them for information on their finances. They also need to be sure they will be able to continue to make the payments for as long as is necessary.

If someone is willing and able to pay the top-up contribution towards your care costs, and we agree to this, we will ask them to sign an agreement. We will then collect the extra money from that person

direct. If the extra payments are going to stop for any reason, you or the other person should contact us for advice immediately.

For more information on all charges and fees, please see our booklet 'Choosing and paying towards care in a residential or nursing home' at www.westsussex.gov.uk (search under Adults' social care publications). Or you can ask for a paper copy of the booklet by contacting our Adults' CarePoint by calling **01243 642121** or using the 'Contact us' form on the 'How to get adult social care support' section of our website. You can also call using Relay UK on **18001 01243 642121** (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

Example: A care-needs assessment carried out with Mrs Y and her family has identified that the best way to meet Mrs Y's needs is in a care home. We have carried out a financial assessment and found that Mrs Y, who has dementia, should contribute £188 a week towards her care home fees. Currently, the usual rate we will pay for a place in a care home providing dementia care is £875. We support the family to choose a home where there is a vacancy, and which can meet Mrs Y's needs and accepts our rate of £875 (which includes Mrs Y's contribution). However, Mrs Y and her family choose another home that charges £905 a week. For Mrs Y to be able to take the place at the home of her choice, someone else (a third party) will need to agree to pay £30 a week to cover the extra cost.

(£905 – £875 = £30)

How do I find and choose a care home?

You can either look for a care home yourself or contact us for advice. We can also give you information about care homes in different parts of the county to help you decide which will best meet your needs. Contact our Adults' CarePoint by calling **01243 642121** or using the 'Contact us' form on the 'How to get adult social care support' section of our website. You can also call using Relay UK on **18001 01243 642121** (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

You may also be able to get information and help from some voluntary organisations, for example Age UK West Sussex, Brighton and Hove. Please see Useful Contacts on pages 28 to 30.

You can also visit www.westsussexconnecttosupport.org and go to the 'Care options' section.

NHS Continuing Healthcare

NHS Continuing Healthcare (CHC) is a package of care that the NHS arranges and pays for. It is available for people who are assessed as having high-level ongoing health needs (a primary health need) and meet the

criteria set by the Department of Health. NHS CHC pays for care which can be provided for people living in their own home or in a care home, nursing home or a specialist health setting. If you are aged under 18, any extra NHS support you need is considered under the National Framework for Children and Young People's Continuing Care. For more information visit Continuing Healthcare – Sussex Health and Care ([ics.nhs.uk](http://www.ics.nhs.uk)).

If you live in your own home, the NHS All-Age Continuing Care (AACC) Team will discuss an appropriate package of care with you to meet your assessed needs. If you live in a care home or nursing home, NHS CHC will pay for your care home fees up to the amount that the Integrated Care Board (ICB) assesses is appropriate to meet your health needs. It does not cover services such as chiropody, reflexology or hairdressing, or the cost of you staying in a room that is bigger than you need.

If you are eligible for NHS CHC, your needs will be reviewed again after three months, and then every year after that. If you live in a care home and need care from a registered nurse, but you do not meet the eligibility criteria for (or are no longer eligible for) NHS CHC, you may be eligible for NHS-funded Nursing Care.

NHS-funded Nursing Care

If you live in (or are planning to move to) a care home that provides nursing, you may be eligible for NHS-funded Nursing Care (FNC). If you are assessed as needing some of your care provided by a registered nurse, your local ICB pays this financial contribution direct to the nursing home. The NHS contributes to the cost of a registered nurse providing, arranging or supervising your day-to-day care.

To check whether you are eligible for NHS-funded Nursing Care, an assessor will carry out an assessment to see whether you need nursing care. If you are eligible and living in a care home that provides nursing care, the NHS will pay £235.88 per week (rate as of April 2024) towards the cost of your nursing care. This rate is set nationally and the Department of Health reviews it each year.

For more information visit NHS-funded nursing care – Social care and support guide – NHS (www.nhs.uk) or Continuing Healthcare – Sussex Health and Care (www.ics.nhs.uk). Or contact the NHS Sussex AACC Team using the details below.

Keeping safe from neglect and abuse

If you are concerned that you or someone you know may be being abused or neglected, or is neglecting themselves, please say something. No one should have to live with abuse or neglect. It is always wrong, whatever the circumstances.

Abuse and neglect can sometimes be prevented if concerns are identified and raised as early as possible. It is important that everyone knows what to look for, and who they can go to for advice and support.

Changes in someone's physical or emotional state may be a sign of abuse. The checklist in the front of this care guide can help you know what good care looks like and when there may be a cause for concern. Abuse can take many forms including physical, psychological, sexual, financial and organisational abuse, neglect, discrimination, domestic abuse, self-neglect and modern slavery. For more information on the types of abuse, visit www.westsussexsab.org.uk/what-is-safeguarding/types-of-abuse/.

If you are concerned about someone you know who may be being abused or neglected, try to speak to them if it is safe to do this. Tell them why you are concerned and ask them what they want you to do about it. Always try to get them to agree to get help. If they or you are too frightened to complain you can talk to someone who you trust, for example, your social care worker, district nurse, or an independent organisation such as Healthwatch (see page 26).

Working together to keep people safe

We work with other organisations to try to make sure that everyone who receives care and support services is safe from abuse and neglect. This includes arrangements for responding when safeguarding concerns are raised with us.

If you report a concern to us, we will:

- whenever possible, talk to the person at risk to find out what they want to happen;
- support the person at risk to have an advocate (someone to represent them) if they need one;
- respond professionally and sensitively and take your concerns seriously;
- talk to the police if a crime may have been committed;
- talk to other agencies that need to be involved; and
- agree the best way of helping, including other types of support.

If we need to carry out a safeguarding enquiry, we will:

- work with the person and partner agencies to help keep them safe;
- make a plan to investigate the concerns; and
- check with the person that what they wanted to happen has happened.

If the person refuses help, but others may be at risk, we will need to take appropriate action. However, we will always keep them informed about any action we decide to take.

If you have a concern that is not about abuse or neglect but is about the quality of a care provider's service, you can raise this with the Care Quality Commission.

How to report a safeguarding concern

If you or someone you know is at risk of being abused or neglected, fill in the safeguarding concern form at www.westsussex.gov.uk/social-care-and-health/social-care-support/adults/raise-a-concern-about-an-adult.

If you cannot use the online form, please call Adults' CarePoint on **01243 642121**. Call using Relay UK: **18001 01243 642121** (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

Further information

You can find out more about adult safeguarding from the Safeguarding Adults Board website at www.westsussexsab.org.uk.

Please also see the Safeguarding Adults Board leaflet '*Adult Safeguarding – Is somebody you know experiencing, or at risk of, abuse or neglect?*'. To read this online, visit www.westsussex.gov.uk and search under 'Adults' social care publications'.

Or you can ask for a paper copy of the leaflet by calling Adults' CarePoint on **01243 642121** or using the 'Contact us' form on the 'How to get adult social care support' section of our website. You can also call using Relay UK on **18001 01243 642121** (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

What to do if you are not happy about a service

All organisations providing community-care and support services in West Sussex are committed to providing high-quality services, but there may be times when you are not entirely satisfied.

If you are not happy with the service that is being provided, you should first raise your complaint with the owner or manager of the service, using their complaints procedure, so they can try to deal with your concerns. If that doesn't work, the next step depends on how your service is paid for.

If you pay for the service yourself

If you are not satisfied with the way your concern or complaint is dealt with, or you do not feel able to approach the owner or manager, you can contact the Local Government and Social Care Ombudsman.

Email: through the website at www.lgo.org.uk
Phone: **0300 061 0614** (Lines are open Monday to Friday. Opening times vary so please check their website.)
Write to: **The Local Government and Social Care Ombudsman, PO Box 4771, Coventry, CV4 0EH.**

If we are paying towards your care and support

If you are not satisfied with the way your complaint is dealt with, or you do not feel able to approach the owner or manager of the care home or service, you should contact your local Adults' Services office or the Customer Relations Team, who will give you more advice.

You have the right to move to another home or have another home-care provider if you are not happy with the service you are receiving. This applies whether or not we are helping with the fees. A social care worker will be able to give you or your relatives advice on how to make the arrangements to move.

If you (or your representative) want to make a comment or complaint about the way in which we have assessed your care needs, or about any social care services we provide, you should contact the manager of your social care team. If you do not want to deal with this person, you can contact our Customer Relations Team. We will look into your complaint in line with our complaints procedures.

The quickest and easiest way to make a complaint is to tell us online at www.westsussex.gov.uk/about-the-council/have-your-say/complaints/make-a-complaint-or-appeal/ or go to www.westsussex.gov.uk and search for 'complaints'.

If you cannot use the online form, please call us on **01243 777100** and ask for the Customer Relations Team. Please help us to keep this helpline for people who cannot use the online form, need help to do so, or want general advice about the complaints process. If you need an interpreter to help you make a complaint, please call **01243 777100** and ask to use the Telephone Interpreting Service.

Call using Relay UK: **18001 01243 777100** (from a textphone or the NGT Lite app downloaded onto a computer, tablet or smartphone).

Write to: **Customer Relations Team, West Sussex County Council, County Hall, Chichester, PO19 1RQ**

Remember, we would also like to hear if things are going particularly well.

Healthwatch West Sussex

Healthwatch is your independent health and social care champion. It aims to make sure NHS leaders and other decision-makers hear your voice and use your feedback to improve care.

Healthwatch will direct you to information and advice to help you make independent, informed choices about your health and care.

It is important that you share your experiences, good or bad, to make things better now, and improve the way services in West Sussex are designed and delivered in the future.

Phone: **0300 012 0122**
Email: helpdesk@healthwatchwestsussex.co.uk
Website: www.healthwatchwestsussex.co.uk

Healthwatch West Sussex also provides a free Independent Health Complaints Advocacy Service to support people who may want to complain about NHS services.

Abbey Care

Personalised Home Care

We pride ourselves on being a well established, family run home care provider. We offer high quality care for:

- Older people
- Those with dementia
- Physically disabled people
- Terminally ill
- Recovering from surgery
- Sensory impairment

If you are looking for an alternative to residential care, or need extra support for those everyday tasks that are becoming more difficult for you, or a loved one, then we are here to help. We can help with:

- Personal Care
- Medication administration
- Simple meal preparation
- Help with shopping
- Companionship

For care and support that is compassionate, flexible and respectful

Contact Jenny or Mike Nightingale on **01444 455622**

Home

is where the heart is

Let's keep it there™

“She makes me
feel like a VIP”

Home Care, Live-in Care & Night Care Support

You love your home and you feel safe there. Needing additional care and support shouldn't change that. With our well-trusted care service, you can remain at home surrounded by loved ones and beloved pets and still enjoy your home, garden and community.

You may be in a situation where you need an extra pair of hands to help with daily chores, or you may have complex needs that require more dedicated care.

We build our care packages around you and your individual needs which means that you and your family can rest assured you'll receive care and support exactly as you need. Our care ranges from a 30-minute daily visit through to full live-in care and waking or sleep in night care and support.

Contact your local team for a friendly chat about care at home.

inhomecare
home is where the heart is

Platinum Homecare

We are a small family run care provider offering care in the community.

Fully trained staff are on hand offering high quality care to meet individual needs.

"The carers are excellent, they always check if there's any extra that needs doing; I only have to ask, nothing is a bother to them."

"The staff are never in a rush, they often stay longer just to talk or finish anything that needs doing."

"The staff are all lovely, smiley and caring and they cheer me up when they come."

WWW.SUSSEXGRANGE.CO.UK
01243 60 62 62

Do you smoke at home? Make sure you put it out, right out.

Cigarettes and other smoking materials can be easily dropped onto beds or furniture where they can start a smouldering fire.

- Avoid smoking when tired, after drinking alcohol, or when taking prescription drugs
- If you smoke in bed or in a chair, keep a glass or jug of water within reach
- Use a proper ashtray that can't tip over and is made of a material that won't burn.

A free home fire safety check can help you stay safe, and you may be offered a free Safe and Well Visit for further support. Scan the QR code or visit our website to find out more.

PA SERVICES FOR YOU

Based in Crawley in Surrey, we provide care to adults with a wide range of complex needs.

PA Services supports individuals to live life in their own homes, empowers them to achieve a happy, valuable life experience by planning futures and engages people in activities that are meaningful to them.

We are committed to putting the personal touch back into care and believe in building relationships with the people we work with.

We support with:

- Medication
- Personal Care
- Learning independent living skills
- Complex Care
- Meal preparation

melrose
care

Melrose Care is an award-winning nursing care provider based in Worthing, West Sussex. We believe that everyone should be able to live their lives the way they choose; that's why our service is totally focussed around you and your needs.

We offer a homely environment with a loving and devoted team, which allows you to feel at home, respected and well looked after. We work to get to know who you are, what you like and

how we can support you in the best possible way. We have over 750 years of care experience between us and this expertise allows us to deliver a service that is truly centred around you.

A CARE AGENCY YOU CAN REALLY FEEL AT HOME WITH

Independence is important to all of us. Kardinal Healthcare provides a high standard of personal care enabling clients of all ages, with a variety of needs to live safely in their own home.

Before your care begins we will visit you either in hospital before discharge or in your own home to carry out an assessment to determine the level of care you require. This could be anything from one hour a week to four calls a day. We would encourage either a relative or close friend to be present at your initial visit. We will then implement a care package tailored to your individual requirements which will be reviewed on a regular basis.

DEPENDING ON YOUR NEEDS WE ARE ABLE TO PROVIDE:

- Personal care
- Assistance with washing & dressing
- Companionship
- Continence care
- Preparing and serving meals
- Domestic support & shopping
- Assistance with medication
- Respite support

We ensure that all our staff are thoroughly checked with references, DBS checks (Disclosure & Barring Service) and are trained to the highest standards.

Call us now on 01903 211931

OR VISIT OUR OFFICE KARDINAL HOUSE, SOUTHDOWNVIEW ROAD, WORTHING, WEST SUSSEX BN14 8NL

Expert advice on paying for care

When you or someone close to you is beginning to need longer term support, besides choosing the right care, you'll also be thinking about how to pay for it.

Care in your own home or in a residential care home is expensive, but with expert advice from independent financial specialists, Carewise can help you to make informed decisions on choosing and paying for the long-term care.

The Carewise care fees specialists are regulated by the Financial Conduct Authority and members of the Society of Later Life Advisers. They are also trained in adult safeguarding and checked through the Disclosure and Barring Service, so you can have peace of mind when contacting Carewise.

Carewise could also help to protect your finances for the future. Before you make any decisions, contact Carewise to find out how you could benefit.

Welcome to Greensleeves

Discover Greensleeves, an exclusive ladies-only dementia care home in Crawley, renowned for over 17 years of compassionate excellence. Our family-run home proudly holds an 'Outstanding' rating from the Care Quality Commission (CQC). We dedicate ourselves to providing unmatched care and dignity in a warm, family-like environment.

Our residents enjoy engaging activities and our award-winning gardens, featuring mature trees and a serene waterfall, perfect for relaxation. Each of our 34 private en-suite rooms offers comfort and accessibility. Fully registered with the National Care Association and CQC, Greensleeves is your trusted choice for exceptional dementia care. Visit us and see why we are a beacon of excellence in care.

THE ROYAL NAVAL BENEVOLENT TRUST

SERVE A DAY, SUPPORTED FOR LIFE

SUPPORTING VETERAN SAILORS AND MARINES NOW AND ALWAYS

The RNBT provides financial assistance to serving and ex-serving men and women and their families – help, opportunity and care in times of need. We don't just help you to weather the storm, we try and help you navigate your way out of it.

If you need help or would like to donate or volunteer contact RNBT.

**Your care
matters
with Barchester**

Everyone deserves uncompromising care. That's the passionate belief of the experts in our care homes.

That's why you'll find our people are well-trained in a variety of skills. They're dedicated people who want to celebrate life and improve well-being. And it's why support is given with kindness, respect and dignity.

**These are the things that mean the most.
And because they matter to you, they matter to us.**

Call to find out how we can help.

Honeywood House

Established in 1954, Honeywood House is an attractive 18th century home set in ten acres of beautiful parkland.

Every resident is treated with the best care suited to their individual needs. Where possible, our trained staff encourage independence and strive to maintain quality of life; our objective is to ensure Honeywood House becomes your home.

We provide long-term care and nursing care for Parkinson's, Alzheimer's, dementia, terminal illnesses and palliative care. We offer 24-hour personal care for all our residents and work closely with our local GP surgery.

We are proud to have had several generations of both staff and residents at Honeywood House and to have had the honour of caring for so many residents and families over the years.

Aniska Lodge Nursing Home

Situated in the beautiful Sussex countryside Aniska Lodge is a purpose built Care Home providing high standards of nursing and dementia care. We also provide nursing care for young adults with physical disabilities.

We have a friendly atmosphere with well trained staff delivering person centred care. We offer good food and a choice of meals with special dietary requirements catered for. There is a visiting hairdresser, optician, dentist and chiropodist and we provide regular activities and entertainment. All rooms are single en-suite.

Aniska Lodge, Brighton Road, Warninglid, Haywards Heath, West Sussex RH17 5SU
Tel: 01444 464130 Email: manager.aniska@excelcarehomes.co.uk www.aniskalodge.com

Russettings is a beautifully refurbished period building with 43 bedrooms right in the heart of Balcombe.

The village itself is located just minutes outside Haywards Heath and in close proximity to Crawley and East Grinstead.

The spacious, airy bedrooms are each individually styled, beautifully furnished and can be tailored to our residents' preferences, creating a comfortable, relaxing living space for every resident to enjoy. En-suites are provided throughout.

We have a beautiful lounge, cosy library and elegant dining room for our residents to enjoy. Our large sunny conservatory leads out into pretty secluded gardens, providing a lovely and peaceful retreat. Russettings is designed with residents in mind and promises an excellent quality of life.

Norden House

Care with a difference

This state-of-the-art care home is purpose-built and dedicated to setting a new standard in how older people can live their lives. Eight households make up the small community and each provides residential care, care with nursing or specialist dementia care.

What sets Norden House apart is its commitment to providing a home that truly supports you, whatever your needs and whatever the future may hold.

Rustington Hall

Rustington Hall is a community based not-for-profit organisation providing quality care and housing solutions since 1948. Rustington Hall is a dual registered Home for 62 residents. We specialise in meeting our residents' individual needs, within a supportive environment. We provide person-centred care that meets residents' emotional, psychological and physical needs. We offer residents:

- Furnished rooms equipped with en-suites, freeview, WiFi, direct dial telephones and modern furnishings
- Integrated call bell and digital care planning systems to ensure our residents' individual needs are met
- Delicious homecooked meals
- A bespoke activities suite for residents to partake in organised activities, and use for private functions
- A unique range of activities and entertainments led by our Wellbeing team
- Modern communal areas including a peaceful lounge and vibrant dining room
- Lovely secluded outside spaces and garden areas

Valerie Manor

your beautiful countryside home from home

Valerie Manor is an award-winning Nursing and Residential Care Home in Upper Beeding, providing accommodation for 23 residents.

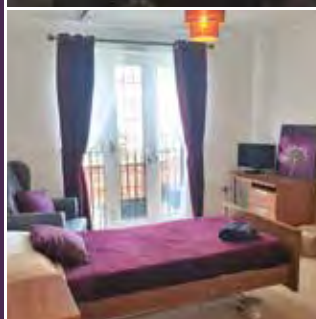

We are situated in the heart of West Sussex at the foot of the South Downs, with stunning views over the surrounding countryside.

Accommodation extends throughout our beautiful 17th century home and purpose-built nursing wing.

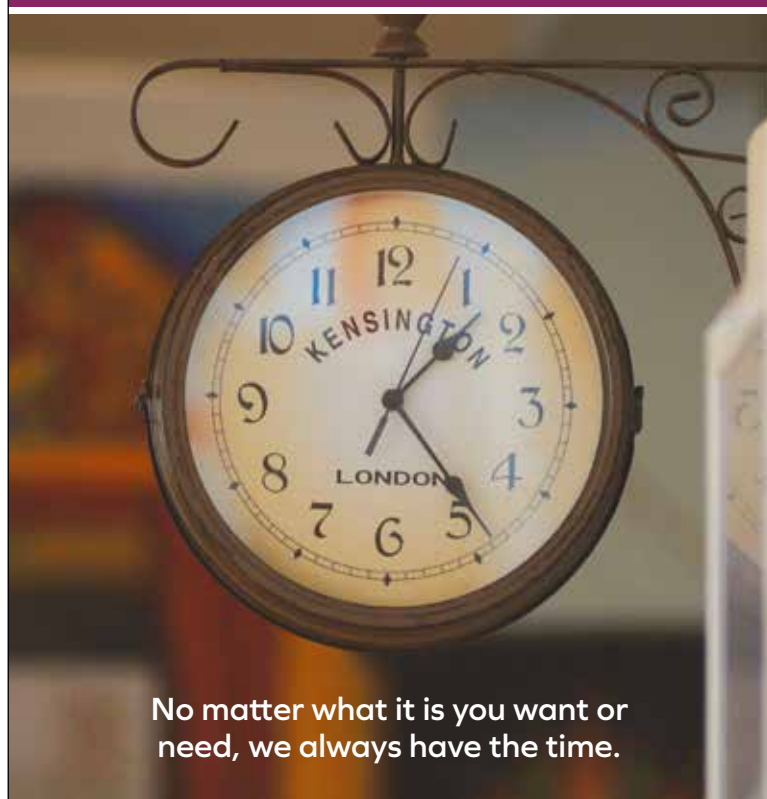

The wellbeing and happiness of our residents is paramount, and our carefully selected team of qualified and dedicated staff focus daily on individual needs.

As a small home, we are able to offer that little extra care and attention, ensuring a home-from-home environment.

Mewsbrook House

No matter what it is you want or need, we always have the time.

Mewsbrook House provides dedicated long-term specialist care and support for up to 50 adults over the age of 25 years, of either gender, with Mental Health or Dementia needs. We believe that provision of high quality care for vulnerable people should be a fundamental expectation.

We like to encourage as much normality in the lives of our residents as we can offer. It is important to us that you feel relaxed and welcome, and that your relatives are confident you are being well supported.

Mewsbrook House serves a wide area in and around Littlehampton and is set in beautiful and tranquil grounds, in an area close to shops and local amenities. It is easily accessible by bus and has adequate parking facilities for visitors.

St Clare RESIDENTIAL CARE HOME

We are a well established, family run residential care home. Our philosophy of care is based on the belief that everyone is an individual with individual needs.

Our vision is quite simply: A Home from Home – Quality Care, Delivered in a Safe Environment.

St Clare has a welcoming, homely atmosphere where dignity, choice and person-centred care are of paramount importance.

We welcome long, short stay and respite residents and have limited vacancies for day care.

- A team of experienced staff provide 24-hour care
- Communal lounge, separate dining room, library and passenger lift
- Traditional home cooking, varied menu – special diets catered for
- Varied programme of activities

The New Grange

After many years of refurbishment and improvements The New Grange residential dementia care home in Worthing is without doubt a stylish, top-quality home.

Hence the many awards the home has received over the years.

With high quality flooring throughout the home, and 48 beautifully appointed rooms, residents can enjoy a spacious lounge where many activities are held for stimulation and enjoyment.

We provide four freshly home cooked meals every day, with a varied and changing menu, served in a spacious dining room, with the option to dine in the lounge or one's own room.

Other features that enhance the daily lives of our residents includes a glorious rear garden, a hair salon, a reminiscence room, our own minibus for days out and, in 2024 a new sensory lounge.

Victoria Lodge Dementia Care Home

48/50 Shakespeare Road, Worthing, West Sussex BN11 4AS

Tel: 01903 203049

www.victorialodgecare.co.uk

A specialist care home providing long term or respite accommodation. Comfortable, friendly and a caring atmosphere that is tailored towards your loved ones needs and wishes.

The majority of our rooms have en-suite facilities; and we encourage residents to personalise their rooms with belongings and furniture from home. We offer a range of activities and support residents to access the community.

Amberley Lodge NURSING HOME

Amberley Lodge is a small yet specialist nursing home, specialising in caring for people with Dementia. Our pride lies in our repeated success in seeing beyond Dementia to care for people – regardless of where they are in their journey with Dementia.

Our inspection reports are accessible from our web page or from the CQC website. The ethos of the home is very much centred on being part of a family – for people living at Amberley Lodge, their relatives and our staff.

Willett Lodge NURSING HOME

Willett Lodge is a small nursing home specialising in the care of people with dementia at various stages in their journey. We aim to create an environment where people feel safe as they would be in their own homes.

We consider Willett Lodge to be a place which involves the people under our care in every action we take on an individual basis.

Feel free to visit us anytime.

RESIDENTIAL CARE HOME

We are a small family run care home set in a relaxing and homely atmosphere, offering long term, respite and day care.

Fully trained staff are on hand 24 hours a day offering high quality of care to each of the resident's individual needs.

"The home comes across as a big family."

"They're one of the best care homes."

"This really is a home from home. The staff are really nice."

"I am always made to feel very welcome. There is an informality about the place but it is very professional."

Specialised Dementia Care

Choose from two well established care homes, each specialising in caring for people who have Alzheimers, dementia or memory loss. Our homes have a homely and comfortable atmosphere, regular activities and safe and secure gardens. We cater for long term and respite care.

Tudor House

Located in the heart of the seaside resort of Bognor Regis, Tudor House is within walking distance of the town centre, beach, the pier and public transport. Chichester, Arundel, Littlehampton and Worthing are easily accessible.

We care for a maximum of 24 elderly people with dementia.

79 Victoria Drive, Bognor Regis, PO21 2TB

ADMIRAL JELlicoe HOUSE PORTSMOUTH

A PURPOSE BUILT CARE HOME FOR VETERANS OF THE ROYAL NAVY

Located in Portsmouth, the Home of the Royal Navy, Admiral Jellicoe House offers state-of-the-art facilities, resident-centred care and dedicated dementia support within an environment which reinforces the camaraderie and shared experience of a life of service in the Royal Navy and Royal Marines.
